About Me

I’m a 23-year-old postgraduate major in Digital education from Shijiazhuang, Hebei, currently based in Suzhou. I have experience in both online and offline teaching, class management, and administrative work in higher education. I am energetic, self-motivated, and highly organized, with strong communication and coordination skills. Passionate about education and planning to pursue a PhD in Education. Enjoy reading and doing sports in my spare time.

Language Skills

Strong proficiency in both English and Chinese, which enabled me to gain recommendation-based admission to Wuhan University for my undergraduate studies. I passed TEM-4 and TEM-8 and achieved an overall IELTS score of 6.5. I am capable of reading academic literature in English and communicating fluently in English in both academic and professional settings.

I also studied German for three years and can use it for everyday communication and read simple articles and books.

Education

2026.9- Current
Digital Education
Xi’an Jiaotong-Liverpool University - Academy of Future Education
Main courses: Education in a Digital Society; Designing Digital Education Curriculum; Integrating STEAM in the 21st Century Classroom; Introduction to Research

2021.9 - 2025.6 GPA 87/100
Translation and Interpretation
Wuhan University - School of Foreign Languages and Literature
Main courses: Translation theory; Chinese-English Translation Skills; Literary Translation; Computer-Aided Translation

Experience

2026.1 - 2026.5
EF English First – Primary Education
Teaching Assistant
Assisted foreign teachers with lesson planning, classroom activity design, and the testing of educational games. Provided basic interpretation during lessons to facilitate communication between teachers and students. Helped maintain classroom order and created a positive and engaging learning environment.

2021.10 - 2025.10
Hong Kong University SAGA Project (education program for children with leukemia)
Research Team Leader & Teaching Instructor
Led the research team and contributed to the design of online courses for children with leukemia. Organized class-building activities to foster a supportive and inclusive learning community. Maintained regular communication with parents, provided emotional support when needed, and delivered online lessons on a weekly basis.

2025.9 - 2026.1
Wuhan University Student Employment Service and Guidance Center
Office Assistant
Organized and managed employment-related documents and materials. Reviewed and verified materials submitted by students and employers to ensure accuracy and completeness. Assisted faculty members with the planning and implementation of career-related events, workshops, and lectures.
